Decentralized Ad-Based Earning Platform

Turn your time into tokens by watching ads

WHAT IS ELLIPTICX?

CRYPTO TRADING POWERED BY AI INTELLIGENCE.

- **Ellipticx** is a decentralised crypto trading and earning platform.
- Users earn consistent rewards through AI-driven automated trading strategies.
- Built on the **BEP-20** blockchain, ensuring transparency, security, and efficiency.
- Converts trading activity into sustainable income opportunities for users.

Welcome to **Ellipticx**, a next-generation crypto trading platform that integrates artificial intelligence with blockchain technology. Our mission is to simplify crypto trading while maximizing returns for our community. By using AI-powered trading algorithms, **Ellipticx** analyzes market trends in real-time, executes trades with precision, and distributes daily rewards to users in a fully automated and transparent manner.

“**Ellipticx** goes beyond manual trading by harnessing machine learning models and predictive analytics to capture profitable opportunities in volatile markets. This intelligent system removes emotional bias, reduces risks, and ensures steady returns for users. Whether you’re new to crypto or an experienced trader, Ellipticx makes trading simple, smart, and rewarding.

ELLIPTICX

AI-POWERED SMART TRADING PLATFORM

AI-POWERED

Ellipticx is an advanced AI-powered trading platform designed to help traders and investors make smarter, data-driven decisions in fast-moving financial markets. By combining artificial intelligence, machine learning, and quantitative trading models, Ellipticx transforms complex market data into clear, actionable trading insights. The platform is built to eliminate emotional trading, reduce manual analysis, and deliver consistent performance through intelligent automation.

THE PROBLEM IN TRADITIONAL TRADING

Modern financial markets are highly volatile, complex, and information-heavy. Most traders struggle to process real-time data efficiently, often relying on emotions, assumptions, or delayed indicators. This leads to inconsistent results, poor risk management, and missed opportunities.

Common challenges include:

- Emotional decision-making under market pressure
- Time-consuming manual technical analysis
- Lack of institutional-grade tools for retail traders
- Difficulty managing risk during high volatility

ELLIPTICX

AI-POWERED SMART TRADING PLATFORM

THE ELLIPTICX SOLUTION

Ellipticx solves these challenges by introducing a fully AI-driven trading ecosystem that continuously analyzes market behavior and identifies high-probability trading opportunities. The platform leverages intelligent algorithms to process large volumes of data, detect patterns, and generate precise trade signals with built-in risk controls.

Ellipticx enables users to:

- Trade based on data, not emotions
- Automate strategy execution with discipline
- Access professional-level market intelligence
- Improve consistency and long-term performance

HOW ELLIPTICX WORKS

Ellipticx operates through a powerful AI engine that works in real time, learning and adapting as market conditions change. The system constantly refines its strategies to maintain accuracy and efficiency.

Core workflow includes:

- Real-time market data collection
- AI and machine-learning based analysis
- Predictive signal generation (Buy / Sell / Hold)
- Automated or assisted trade execution
- Continuous optimization through learning models

TECHNOLOGY & INFRASTRUCTURE

Ellipticx is built on a modern, scalable, and secure technology stack that ensures reliability, speed, and data protection.

Technology highlights:

- Artificial Intelligence & Machine Learning models
- Quantitative trading algorithms
- Cloud-based high-availability systems
- Secure APIs and encrypted data handling
- Scalable architecture for global users

WHO ELLIPTICX IS FOR

Ellipticx is designed to serve a wide range of users, from individual traders to professional investors looking for intelligent automation.

Ideal for:

- Retail and professional traders
- Crypto, Forex, and derivative market participants
- Investors seeking data-driven strategies
- Portfolio managers and analysts
- Tech-savvy users exploring AI-based trading

KEY PILLARS OF ELLIPTICX

Our earning model is designed to be simple, smart, and sustainable. Ellipticx leverages AI-powered trading combined with blockchain transparency to maximize user benefits. Instead of relying on manual decision-making or risky speculation, our system ensures automated, data-driven strategies that provide steady returns and long-term growth for every participant.

- **AI-Driven Trading** → Automated strategies powered by machine learning to analyse markets and execute trades with precision.
- **Daily Rewards** → Users receive consistent earnings through our trading bonus model, ensuring stable and predictable growth.
- **Token Growth** → As adoption increases, the value and utility of Ellipticx tokens rise, turning daily rewards into long-term assets.

Digitalization of Token:

Here's a breakdown of our tokenomics. Out of the total supply of 50 units, 40% is secured as a blocked reserve, ensuring long-term liquidity and ecosystem stability. Marketing gets 20% of the allocation to fuel adoption and global visibility. Another 20% is set aside for future development and project expansion, ensuring Ellipticx continues to innovate. 10% is reserved for the developer team, who build and maintain the platform, while the remaining 10% supports project scheduling and day-to-day operational development. This balanced distribution ensures sustainability, growth, and security.

TOKENOMICS ALLOCATION

Tokenomics Allocation

- **40% Blocked Reserve** –
 - Stability & Liquidity
- **20% Marketing** –
 - Awareness & Growth
- **20% Future Development** –
 - Expansion & Scaling
- **10% Developer Team** –
 - Core technical support
- **10% Scheduler & Project Development** –
 - Platform operations

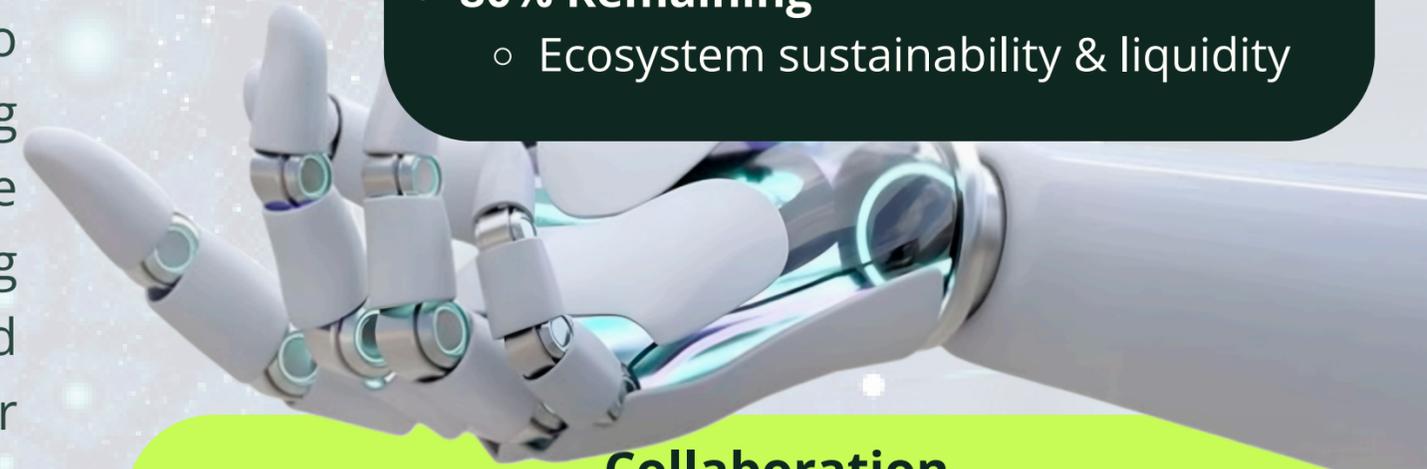

REVENUE DISTRIBUTION PER SALE

Our revenue distribution is designed to maintain a healthy and growing ecosystem. For every sale, 10% of the proceeds go to our developers, ensuring continuous platform improvement and innovation. Another 10% is allocated for social promotions to expand our community reach and engage new users. The remaining 80% is directed towards the ecosystem—strengthening liquidity, supporting sustainability, and ensuring long-term stability of the Ellipticx token economy. This model ensures that both developers and the community benefit, while the ecosystem remains strong.

Revenue Distribution per Sale

- **10% Developers –**
 - Innovation & updates
- **10% Social Promotion –**
 - Community awareness
- **80% Remaining –**
 - Ecosystem sustainability & liquidity

Collaboration

Collaboration is at the heart of Ellipticx's growth. By working closely with AI innovators, blockchain developers, and trading experts, we ensure continuous improvement and sustainable expansion of our ecosystem. Strategic partnerships with global exchanges, liquidity providers, and fintech leaders strengthen our trading infrastructure while delivering greater value to our users. Together, we are building a decentralized, AI-powered ecosystem that thrives on transparency, trust, and shared success.

WHY ELLIPTICX?

Dual earning model:

Trading + Affiliate income

BEP-20 blockchain powered:

Transparent & secure

Free-to-earn:

No upfront cost for users

Ellipticx stands out in the blockchain and crypto trading industry for four key reasons. First, we provide AI-powered trading intelligence, enabling users to benefit from automated strategies that analyze markets and execute trades with precision. Second, Ellipticx is built on the BEP-20 standard of Binance Smart Chain, ensuring every transaction is transparent, secure, and efficient. Third, our tokenomics are designed for sustainability, striking a balance between rewards, growth, and ecosystem development to ensure long-term stability. And finally, Ellipticx is user-friendly—anyone can participate easily, enjoy daily rewards, and grow their assets without needing advanced trading knowledge.

WHY ELLIPTICX IS UNIQUE

Ellipticx stands out from traditional finance because it combines AI-powered trading, blockchain transparency, and user-focused design. Unlike banks and conventional financial systems that are limited by branch hours and intermediaries, Ellipticx operates 24/7 on blockchain, giving users seamless access anytime, anywhere. Speed is another key advantage—our AI-driven trading engine executes decisions in real time, while traditional systems often take days to process approvals and settlements. On the cost side, Ellipticx is more efficient, reducing overhead through automation compared to the high operational costs of banks and centralized exchanges. Finally, personalisation sets us apart—Ellipticx delivers tailored trading strategies and insights through AI intelligence, while traditional finance relies on manual, segmented services. This makes Ellipticx a faster, smarter, and more profitable platform for the digital era.

Feature	Ellipticx	Traditional Finance
Accessibility	24/7 via apps	Limited by branch hours
Speed	Instant approvals	Days to process
Cost Efficiency	Lower overhead	High operational costs
Personalization	AI-driven	Manual or segmented

BLOCKCHAIN & CRYPTOCURRENCY

Ellipticx is powered by blockchain technology, built on the BEP-20 standard of Binance Smart Chain (BSC). This ensures that every transaction is transparent, secure, and immutable. By integrating blockchain, Ellipticx eliminates middlemen, reduces costs, and gives users direct rewards for their participation in advertising and affiliate marketing.

Decentralization

Unlike traditional advertising platforms controlled by centralised corporations, Ellipticx is fully decentralised. This means revenue is distributed fairly to users, developers, and promoters without hidden fees or unfair practices. Decentralisation gives users full ownership of their tokens and creates a trustworthy ecosystem where value is shared, not hoarded.

CYBERSECURITY IN ELLIPTICX

At Ellipticx, security is our highest priority. Since our platform involves AI-powered crypto trading and blockchain-based token rewards, we ensure that all user data, funds, and transactions remain safe, transparent, and fully protected. Our system uses multi-layered security protocols, including blockchain immutability, smart contract audits, and advanced encryption to eliminate vulnerabilities. In addition, AI-driven fraud detection continuously monitors trading activity to identify and prevent suspicious behavior in real time. This combination of blockchain security and modern cybersecurity standards safeguards both users and the ecosystem, ensuring a trustworthy and reliable trading environment.

Data Breaches:

Ellipticx uses end-to-end encryption and secure blockchain protocols to prevent unauthorized access or data leaks. Every transaction is recorded immutably on the Binance Smart Chain, ensuring that user information and token activities cannot be tampered with or exposed.

Fraud Prevention

Through smart contracts and AI-driven monitoring, Ellipticx automatically detects and prevents fraudulent activities such as fake clicks, bot-driven ad views, or suspicious referral chains. This keeps the ecosystem fair, rewarding only genuine users and advertisers.

Regulatory Compliance

Ellipticx follows global AML (Anti-Money Laundering) and KYC (Know Your Customer) guidelines to ensure compliance with digital asset regulations. Our commitment to regulatory standards builds trust with users, advertisers, and partners while positioning Ellipticx as a reliable and transparent platform.

THE FUTURE OF ELLIPTICX

The future of Ellipticx lies in building a smarter, more inclusive, and globally connected digital advertising ecosystem. By leveraging blockchain, AI, and embedded financial tools, Ellipticx will continue to empower users, advertisers, and affiliates alike. Our roadmap includes expanding token utility, integrating advanced personalisation, and offering seamless financial services within the platform. This positions Ellipticx not just as an earning platform but as a long-term driver of innovation in the digital economy.

Embedded Finance

Ellipticx aims to integrate financial services directly into the platform, allowing users to stake, swap, or use tokens for real-world utilities. This embedded finance model ensures that earnings from watching ads are not just rewards, but also gateways to broader financial inclusion.

Hyper-Personalization

Through AI-driven insights, Ellipticx will deliver personalized ad experiences tailored to each user's interests and behavior. This not only improves advertiser ROI but also ensures users see meaningful content while maximizing their token rewards. Hyper-personalization makes the ecosystem smarter, fairer, and more engaging for everyone.

REGULATIONS & COMPLIANCE

Ellipticx is built on a decentralized blockchain foundation, ensuring transparency, fairness, and security while still aligning with global compliance standards. Unlike centralized platforms that control user data and assets, Ellipticx empowers users with full ownership of their tokens and leverages smart contracts to maintain trust and compliance.

KYC (Know Your Customer)

To ensure a secure ecosystem, Ellipticx integrates decentralized KYC solutions where users' identities are verified securely while maintaining privacy. This prevents misuse while enabling smooth onboarding for genuine participants.

PSD2 & GDPR (in Europe)

With decentralization, Ellipticx minimizes data collection and ensures compliance with GDPR standards, giving users control over their personal information. Unlike centralized platforms, user data is not sold or misused.

AML (Anti-Money Laundering)

Ellipticx follows AML guidelines through on-chain monitoring and smart contract rules, automatically detecting suspicious activities. Decentralized transparency ensures funds flow fairly and responsibly without manipulation.

Bank Indonesia & OJK (Indonesia)

Ellipticx is designed to be borderless and decentralized, but it still aligns with local regulators such as Bank Indonesia, OJK, and other financial authorities worldwide, ensuring trust and adaptability as adoption grows.

PACKAGE SUBSCRIPTION

Ellipticx offers flexible subscription packages designed to suit every type of user, from beginners to professional investors. Our packages start as low as \$50, making it easy for anyone to participate and grow within the ecosystem. Each package comes with a defined profit limit, ensuring fair and transparent earnings for all users. Smaller packages provide a safe entry point with steady returns, while higher-tier packages allow for greater earning potential and rewards. With profit limits ranging from 200% up to 400%, users have the opportunity to maximize their benefits while contributing to the growth of the Ellipticx ecosystem. This tiered structure ensures inclusivity, sustainability, and long-term profitability for our global community.

Package	Package
\$50	\$1000
\$100	\$2500
\$250	\$5000
\$500	Affordable entry, scalable growth - Ellipticx packages for everyone.

TRADING BONUS

A decorative graphic consisting of a green circular outline with a hand cursor icon pointing towards the center. The background of the entire page is a light blue and white circuit board pattern.

Get 8% Monthly

Ellipticx rewards its community with a daily trading bonus of 8%. This bonus is designed to give users consistent and sustainable returns on their active participation within the ecosystem. Whether you are holding tokens, engaging in platform activities, or contributing to liquidity, you can enjoy steady daily growth on your assets.

INTRODUCER BONUS

10%

The Introducer Bonus is designed to reward users who help expand the Ellipticx community by introducing new members to the platform. Every time a new user joins and activates their trading account through your referral link, you receive a 10% bonus on their first trading deposit or package.

This bonus encourages community-driven growth and ensures that active participants benefit directly from expanding the Ellipticx network. It's a simple yet powerful way to earn more while helping others start their journey in AI-powered crypto trading.

TRADING PAIR BONUS

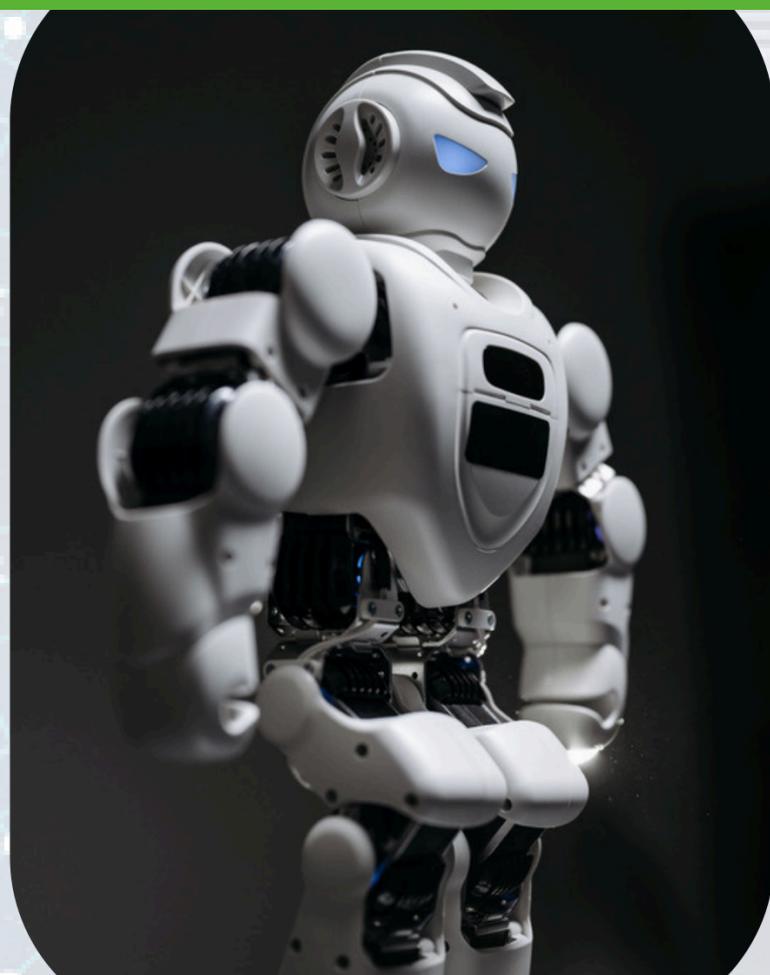

EllipticX offers a powerful 20% Trading Matching Bonus based on a 1:1 pairing system. Your income is calculated on daily closing, and the matching bonus is credited according to your active package value, ensuring fair and scalable earnings.

REWARDS

**Equal opportunity through
50:50 balance rule**

Milestone	Stronger	Other	Reward
\$5,000	\$2,500	\$2,500	\$100
\$10,000	\$5,000	\$5,000	\$250
\$20,000	\$10,000	\$10,000	\$500
\$50,000	\$25,000	\$25,000	\$1,200
\$100,000	\$50,000	\$50,000	\$2,500
\$200,000	\$100,000	\$100,000	\$5,000
\$500,000	\$250,000	\$250,000	\$10,000
\$1,000,000	\$500,000	\$500,000	\$20,000
\$2,000,000	\$1,000,000	\$1,000,000	\$40,000
\$5,000,000	\$2,500,000	\$2,500,000	\$80,000

EllipticX offers milestone-based one-time rewards starting from \$5,000 total business volume. Each milestone requires a 50:50 ratio between the stronger team and other (weaker) team. Rewards are credited once per milestone upon successful completion.

CONCLUSION

Ellipticx is more than just a blockchain-based advertising platform—it is a complete ecosystem where users, advertisers, and affiliates come together to share value fairly. By combining decentralisation, transparency, and innovation, Ellipticx transforms how online advertising works.

Through ad-watching rewards, affiliate income, and token-based growth, we empower users with new ways to earn while delivering advertisers better engagement and ROI. Our focus on cybersecurity, compliance, and global scalability ensures long-term trust and sustainability.

As adoption of blockchain and cryptocurrency continues to accelerate worldwide, Ellipticx is positioned to become a leader in decentralised digital advertising. Together, we can turn every second of attention into real value.

Ellipticx - Turning time into tokens, and tokens into opportunity.

TERMS

-  **Reward Eligibility**

- Rewards are available only to active members.
- Members must achieve the defined business milestones with a 50:50 ratio between the stronger leg and the weaker leg.
- Each milestone offers a fixed reward.
- Rewards start from \$100 at the \$5,000 milestone and can grow up to \$80,000 per day at the \$5M milestone.

-  **Income Limits**

- Working Income (Referral income, milestone rewards, direct/team earnings, etc.)
 - → Capped at 4× of the package value.
- Non-Working Income (Daily rewards, ROI, passive earnings, etc.)

-  **Withdrawal Rules**

- Withdrawal requests can be made at any time through the user dashboard.
- A 10% Admin Charge applies to every withdrawal.
- Payouts will be processed and created within 48 working hours after the withdrawal request.

-  **ROI Days**

- ROI will be credited once per month.
- ROI will resume and be released on the 1st day of every month.

CALL TO ACTION

Turn your time into tokens with Ellipticx
To conclude, Ellipticx is redefining the online advertising space by rewarding users directly for their attention. With every ad viewed, you don't just help advertisers—you also get rewarded with a growing digital asset. Our system is simple, transparent, and community-driven. We invite you to join us at www.ellipticx.online and be part of the Ellipticx ecosystem, where your time truly becomes valuable.

THANK YOU
